

# AGE-DEFYING INTENSIVE REPAIR SERUM™

with Synchronized Peptide Complex™

## FAQs

### What is a serum?

A serum is a skincare product you can apply to your skin after cleansing but before moisturizing with the intent of delivering powerful ingredients directly into the skin. Serums are particularly suited for this task because they are made up of smaller molecules that can penetrate deeply into the skin and deliver a high concentration of active ingredients. This makes them a great treatment for targeting specific skincare concerns, like wrinkles.

### What does the AGE-DEFYING INTENSIVE REPAIR SERUM™ do for my skin?

The AGE-DEFYING INTENSIVE REPAIR SERUM™ can help you restore the appearance of healthy and glowing skin. This unique two-part solution is mixed right before the first use to give you the most effective age-defying skin care treatment. Our Synchronized Peptide Complex™ has been stabilized through a patented process to deliver unparalleled results. The AGE-DEFYING INTENSIVE REPAIR SERUM™ will help reduce the appearance of fine lines and wrinkles and support skin elasticity. This potent serum locks in moisture to help restore your skin's youthful look.

### Why do I need a serum for my skin?

Serums contain powerful ingredients and are meant to protect your skin from environmental damage using ingredients such as antioxidants and potent peptides.

### At what age should I start using a serum?

Anti-aging serums are beneficial for all skin types, not just mature skin, and can be used around the age of 20, based on your skin's needs.

### Why is the serum packaged in two small bottles versus one bigger bottle?

We have packaged the serum in 2 small bottles to provide the best condition for the Synchronized Peptide Complex and its efficacy. Each bottle is designed with two divided sections—powder and solution, which will be mixed right before use.

### What time of day should the serum be applied?

For best results, use the AGE-DEFYING INTENSIVE REPAIR SERUM™ twice a day, morning and evening on cleansed skin. For best results use before applying the ULTIMATE REVITALIZING CREAM™.

### Can the serum be used alone?

Yes, however for best results, we recommend using the serum in combination with the ULTIMATE REVITALIZING CREAM™.

### How do I apply my serum?

The AGE-DEFYING INTENSIVE REPAIR SERUM™ should be applied with clean fingers throughout your entire face onto cleansed skin. No special applicator is required.

### Can the serum be applied around the eyes and to the lash areas?

Face serums are not designed for use on or around the eye area.

### Can I use the serum under my makeup?

Yes, you can apply your makeup after applying the serum.

### When should I expect results?

Based on customer testimonials, you can see first results around day 14, if you use both the AGE-DEFYING INTENSIVE REPAIR SERUM™ and ULTIMATE REVITALIZING CREAM™ twice daily.

with Synchronized Peptide Complex™

## FAQs

### What are the main ingredients in the product?

Synchronized Peptide Complex™ is a combination of bioidentical, stabilized growth factors and research-backed peptides. These peptides aid in the reduction of fine lines and wrinkles. In addition, it contains a powerful antioxidant called Superoxide Dismutase, which has been shown to protect the skin from damage.

**Niacinamide** -Is a vitamin that works with the natural substances in your skin to help visibly minimize enlarged pores, tighten pores, improve uneven skin tone, soften fine lines and wrinkles, diminish dullness, and strengthen a weakened surface.

**Adenosine** -Decreases the appearance of wrinkles by energizing your skin's surface. It helps improve skin smoothness, appearance of crow's feet, and reduce the depth of brow wrinkles. The result is a smoother, more youthful complexion.

**Hyaluronic Acid** -Helps hydrate the outer layers of the skin, therefore improving the skin's appearance making it look more radiant and youthful.

**Levan** -It delivers a deep moisturizing effect. Levan also reduces wrinkles, prevents trans epidermal water loss, and restores skin vitality.

**Glycerin** -Locks in moisture without clogging pores.

### Is this Serum good for all skin types?

Yes, the serum can be used on all skin types.

### What is the “patented process”?

The patented process is a way of hyper-stabilizing the growth factors against time, moisture and temperature.

### Do serums have a particular texture?

Serums usually have a refreshing, delicate texture that is absorbed quickly and easily into the skin, with non-sticky after feel.

### Is this product tested on animals?

No, none of the HCo.™ products are tested on animals.
