

KētoCré®

Blending KētoCré into your morning coffee is not your average latte, it's an energizing, keto-friendly coffee drink that helps kickstart your day into ketosis. KētoCré can be mixed with any of your favorite functional beverages to create a creamy and delicious drink to support your keto lifestyle. Help fuel your energy and weight management goals with KētoCré.

There are so many different ways to incorporate KētoCré into your daily routine:

- **During a fast:** to increase ketone production, suppress your appetite, reduce cravings, and extend your fast period
- **At breakfast:** a scoop of KētoCré is a perfect addition to your morning coffee, tea or hot chocolate and adds delicious creaminess to your beverage.
- **In baking:** KētoCré is great for keto baking.
- **Pre and post workout:** KētoCré is a great pre-workout to boost your mental and physical performance. You can mix it with water, add it to your pre-workout drink or use it after a workout in a protein smoothie to boost your recovery.

Ingredient benefits:

- MCT oil powder converts rapidly into fat-burning, brain-booting ketone energy.
- MCT oil is easier to digest in powder form verses a liquid.
- MCT's have been shown to help speed up your metabolism and can help you lose fat.
- Grass-fed butter is delicious and satisfying. Combined with MCT oil these smart fats help improve focus, fight cravings, and fuel your day.
- Fat from grass-fed butter helps metabolize caffeine much slower, which makes you less likely to experience an afternoon crash.
